Portfolio - Council for Economic Education (CEE)

The purpose of the program portfolio is to gather your feedback on the CEE resources you've used in the past. We're not asking you to provide feedback on every item in the portfolio—only with which you have direct experience. In the pages that follow we will show you how to use the search functionality to find specific resources in the portfolio.

The current internal version of the program portfolio can be found at <http://portfolio.cee.stevekinney.me/>. On the page, you'll see set of search tools above a list of lessons. The page currently shows 20 lessons at a time. Changing a parameter in the tools will instantly change the lessons listed.
