

Portfolio - Council for Economic Education

The purpose of the program portfolio is to gather your feedback on the CEE resources you've used in the past. We're not asking you to provide feedback on every item in the portfolio—only those you have direct experience with. In the pages that follow we will show you how to use the search and filter functionality to find specific resources in the portfolio.

The current internal version of the program portfolio can be found at <http://portfolio.cee.stevekinney.me/>. On the page, you'll see a set of filters above a list of lessons. The page currently shows 20 lessons at a time. Changing a parameter in the filter will instantly change the lessons listed.
